

Model: GTG OXIGEN

	Vehicle category	L7e	
	Length * Width * Height (mm)	2250*1400*1642mm	
	Maximum speed	55km/h	
	No of seats	2	
	Battery type Lithiu	6.2 Kwh Lithiu	
	battery charge time	less than 2 hours	
	Motor	AC MOTOR, AC92, 150Ah	
	autonomy	120 – 150 km	
	Weight(kg)	580 kg – including battery weight	
	Distance between axes (mm)	1560mm	
	distance between front wheels (mm)	1146mm	
	distance between back wheels (mm)	1166mm	
	Minimum distance from ground (mm)	134mm	
	Additional equipment	Servo brake	
		Servo direction	
		Air conditioning	
		Heating	
		USB radio; shark tail antenna	
Central locking from the remote control and from inside the vehicle			
Electric jams command individual passenger and centralized driver			
Brake and visual brake control signal sensor			
Visible safety belt signaling sensor on board			
Visually open door signaling sensor on board			
Selection lever and on-board direction indicator (D, P, R)			
On-board signaling indicator of the battery charge graph and percentage			
Instantaneous light consumption display			
Onboard charger of 1.8 kWh and charging cable from 230V socket			
Plug socket for Tip2 coupling			

The battery warranty is 1 year
Battery life is about 50,000 km
