5 FACTORS FOR SUCCESS

Flexibility

Being a mid-level company in Romania, we can easily adapt to our customers' transportation requirements. By flexibility in the trade relations, we organize shipments for companies in various industries (textiles and garments on hangers, consumer goods, electronics, Hi-Tech, personal care products, household, furniture, mechanical and spare parts).

Global Coverage

Through the ALPI Group, we have the support and collaboration of more than 200 correspondents worldwide. Thus, with MA.RA Logistics Quality you can transport goods to and from almost any part in the world.

Specialized Services

We are recognized today by a great number of garment manufacturers in Romania, as reliable partners in organizing the shipments of textiles and garments on hangers. Because we are passionate about what we do, we are constantly looking to consolidate such Specialized Services for other industries as well.

Relevant Experience

To guarantee the satisfaction of our customers, MARA Quality Logistics, with an experience of over 20 years, develops permanent resources, knowledge and skills in the field of Transport and international shipping.

Cost Advantage

Having strong partnerships with vendors, carriers and other service providers, we can guarantee our prices are competitive. We offer also a big storage space, heated and with air condition, to store your goods safe and organized even for longer period of time.

Road Transport

A personalized service, adequate to your needs

Groupage

Our main business is transporting goods in Less than a Truck Load (LTL). We collect the goods using the Order Management System, which organizes the transport of goods with the same destination, thus resulting in our clients significantly reducing their costs, in the optimization of the storage space, the efficiency of the transit times and, finally, in reducing the carbon emissions.

Full Truck

If you have to carry large quantities or volumes of goods, we offer support on procedures, documentation, type of truck and necessary equipment to ensure the transit time and service quality.

Lines with regular traffic

We have daily connections for transport in less than truck load and full truck load to and from Italy, Spain, Turkey, France, Portugal, UK, Holland, Sweden, Denmark, Germany, Poland, Lethonia, Estonia, Lithuania, Bulgaria.

Sea Transport

Maximum safety, guaranteed efficiency

LCL – Less than a Container Load

If you do not have enough goods to load a full container, MARA Logistics Quality can collect and consolidate your company's goods with the ones of other companies, in a single container, to be sent to the desired destination.

The quality of service and the costs are essential for this type of transport.

FCL – Full Container Load

We can provide, at the factory or at your supplier, all kinds of containers and the necessary documentation to carry the goods in maximum safety.

Multimodal

Our staff can assist you in finding the best route of transport, combining Sea and Air transport, in order for you to benefit from an efficient service in terms of cost and transit time.

Air Transport

Always on time, anywhere in the world

Express Service

When a delivery is urgent, *MA.RA Logistics Quality* provides you with the Air Express Service, with reduced transit time and direct flights to the destination. The higher costs will be expressed in the impeccable quality of this service.

Standard & Direct

Through its partnerships, *MA.RA Logistics Quality* can provide a constant and reliable service for the transport of general goods, textiles, garments on hangers, exotic goods and other types of customized transport.

Combined Air & Sea

Our staff can assist you in finding the best route of transport, combining Sea and Air transport, in order for you to benefit from an efficient service in terms of cost and transit time.

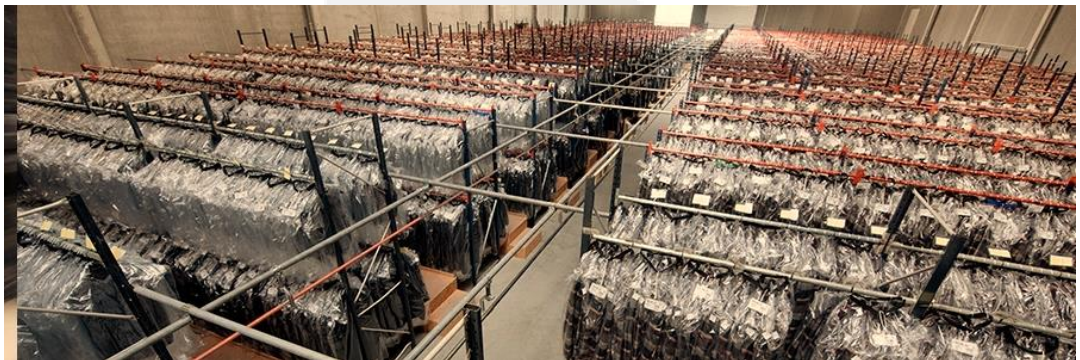

Warehousing

Our positioning to your advantage

We have storage space under customs surveillance with easy access to the city belt of Bucharest and to the Highway A2, facilitating the quick access to each area of the country. You will always know the situation of your stocks through the goods management system.

The handling services for goods consist of:

- Loading and unloading services
- Palletizing services
- Packaging and labelling services
- Preparing orders for delivery
